

PREPRINTS

- [16] DRUET, P.-E.; NAUMANN, J.; WOLF, J.: *A Meyers' type estimate for weak solutions to a generalized stationary Navier-Stokes system*. Preprint nr. 08-06, Inst. für Mathematik, Humboldt-Univ. Berlin 2008.
- [15] NAUMANN, J.; SIMADER, C.: *Measure and Integration on Lipschitz-Manifolds*. Preprint nr. 07-15, Inst. für Mathematik, Humboldt-Univ. Berlin 2007.
- [14] NAUMANN, J.: *Transformation of LEBESGUE measure and integral by LIPSCHITZ mappings*. Preprint nr. 05-8, Inst. für Mathematik, Humboldt-Univ. Berlin 2005.
- [13] ——— : *Remarks on the prehistory of Sobolev spaces*. Preprint nr. 02-2, Inst. für Mathematik, Humboldt-Univ. Berlin 2002.
- [12] NAUMANN, J.; WOLFF, M.: *A global L^p -estimate on weak solutions of nonlinear parabolic systems under mixed boundary conditions*. Preprint nr. 95-2, Inst. für Mathematik, Humboldt-Univ. Berlin 1995.
- [11] ——— ; ——— : *Interior integral estimates on weak solutions of nonlinear parabolic systems*. Preprint nr. 94-12, Fachber. Mathematik, Humboldt-Univ. Berlin 1994.
- [10] NAUMANN, J.: *On the existence, uniqueness and interior regularity of weak solutions to the stationary drift-diffusion equations in semiconductor theory*. Vorlesungsreihe no. 27, SFB 256, Univ. Bonn 1993.
- [9] NAUMANN, J.; SCHMIDTMANN, O.: *On the existence of weak solutions of the stationary semiconductor equations*. Preprint nr. 92-7, Fachber. Mathematik, Humboldt-Univ. Berlin 1992.
- [8] NAUMANN, J.: *On the convergence of iteration schemes for steady state semiconductor calculation*. SFB 256, Math. Inst., Univ. Bonn, preprint no. 130 (1990).
- [7] NAUMANN, J.; WOLFF, M.: *A global L^q -gradient estimate on weak solutions of nonlinear elliptic systems*. Dip. Mat. Univ. Catania (rapporto interno, 18. 02. 1991) (19 pp.).
- [6] NAUMANN, J.: *On some integral estimates on weak solutions of the non-stationary Stokes system*. Dip. Mat. Univ. Catania (rapporto interno, 22.11.1989) (14 pp.)
- [5] IVERT, P.-A.; NAUMANN, J.: *Higher integrability by reverse Hölder inequality (the parabolic case)*. Dip. Mat. Univ. Catania (rapporto interno (1988)) (30 pp.).
- [4] NAUMANN, J.: *On the interior regularity of weak solutions of the stationary Navier-Stokes equations*. Dip. Mat. Univ. Pisa, report no. 156 (1986).

- [3] — : *On regularity of the solutions to the variational inequality of stationary visco - plastic fluid motion.* Dep. Math. Linköping Univ., report LiTh-MAT-R-86-01 (1986).
- [2] — : *On variational principles in perfect plasticity.* Preprint P-Math.-10/81, May 1981, Akad. Wiss. DDR, Inst. f. Math.
- [1] — : *On the minimum problem for the warpening function in the elastic-plastic torsion of a cylindrical bar.* Preprint P-Math.-08/81, March 1981, Akad. Wiss. DDR, Inst. f. Math.
