

## WINTER SEMESTER 2015/16 - NONLINEAR PDE

### Course Evaluation

The evaluation of the course will be available between January 18 and January 30.

- (1) Point your browser to <https://evaluation.hu-berlin.de>
- (2) Proceed to MatNat: Mathematisches Institut
- (3) Choose our course and fill out the form. (Both the lecture and the recitation can be evaluated.)
- (4) The password needed to submit is Kowalewska\_1883.

Your participation will be appreciated.

### Final Exam

**First choice.** February 12, 2015 (11 am, RUD 25, Room 1.115). Registration until January 29 with possible withdrawal until February 5.

**Second choice.** April 15, 2015 (9 am, RUD 26, Room 1307). Registration until April 1 with possible withdrawal until April 8.

Please note that for the final exam you may prepare a two-sided A4 paper with hand written notes and formulas. The final exam will have five questions and you are asked to choose four of them. Each problem counts 25 points and you have 90 minutes time to work the problems.
